

Greetings on this last Sunday call for the 21–22 schoolyear! I hope this finds everyone rested and ready for the final 3 days of school!

- Thank you to Mr. Trese as he and his chorus students put on a wonderful concert and to the kindergarten team for an adorable Nursery Rhyme Musical. We loved seeing all the families and the students were amazing!
- Many teams have prepared some end of the year activities this week so be sure to check in with the teacher to see if anything special is needed each day.
- Mark your calendars for Meet the Teacher Day on Monday August 8th and the first day of school is Wednesday August 10th. Student supply lists for next year have already been made and will be sent home in your final Tuesday folder this week and you can find them on our website as well.
- Monday morning, we are looking forward to seeing all our 5th grade parents and guardians as our 5th graders have their promotion ceremony beginning at 9 a.m. in our cafeteria. The staff will once again park out in the field to give as much parking spaces as possible and know that the Verizon Center does allow us to use their grassy area for overflow parking for all our events.
- On Tuesday morning we will have our final 5th grade event as the whole school comes outside to clap them out for their last walk around elementary school. 5th grade families are invited to join all along the sidewalk around the playground area. We would love for you to bring the whole family beginning at 9 a.m. 5th graders are allowed to leave right after the clap out to celebrate with their families!
- Wednesday is the last day of school for the rest of our students. We will still be taking calls in the summer Monday through Thursday 7 to 4, final report cards can be viewed through your parent portal, and FSA scores will be mailed home once they arrive.
- Unfortunately, we had a positive case in Mrs. Johnson's room this week. For everyone's safety please keep your child home if they are sick and call the clinic for next steps. If you would like free covid test kits you can get them through the US Postal Service by completing the steps at the link <https://special.usps.com/testkits>

Families I want to again thank you for being a wonderful community and for all your support this year. I hope you have a fun, memorable and safe summer! See you on August 8th in our cafeteria!
